GPT's Rouse Hill Town Centre Wins Energy Green Globe Award

The GPT Group was awarded the Department of Environment and Climate Change Energy Green Globe Award at Parliament House in Sydney overnight.

The Green Globe Awards are the leading environmental awards in New South Wales. Winners on the night were selected by an independent panel of expert judges and announced at the gala event hosted by the Hon. Carmel Tebbutt, NSW Minister for Climate Change and the Environment.

As an owner, manager and developer of property, GPT is committed to improving the social, economic and environmental capital of our stakeholders and the communities we touch.

Rouse Hill Town Centre, which is owned, managed and developed by GPT is a 70,000 sqm retail, entertainment and community hub featuring open air shopping and entertainment options with real streets, a Town Square, Market Square and terrific interactive children's learning and play areas. The asset, which launched in March 2008, is currently tracking at a 40% energy saving when compared to a traditional shopping centre of the same size. GPT originally set a target to reduce the Centre's eco-footprint by 25% when compared to a traditional shopping centre of the same size and the Centre is now tracking at an eco-footprint reduction of 32%.

GPT CEO, Michael Cameron said the multi-award winning Rouse Hill Town Centre was one of the many jewels in GPT's high quality Australian real estate portfolio.

"The GPT team is extremely proud of the recognition it has received for the design innovation and leading edge sustainability initiatives evident at Rouse Hill Town Centre. The asset is loved by its community, which is equally proud to add a NSW Government Green Globe Award to the accolades received for Rouse Hill Town Centre.
