Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. Casual employees are eligible for PRIMARY CARERS LEAVE if they have been engaged by GPT on a regular and systematic basis over a timeframe of at least 12 months and but for the expected birth or placement of a child, they would have had a reasonable expectation for continuing engagement by GPT on a regular and systematic basis. From January 2018, GPT increased our non primary carers leave from 1 weeks to 2 weeks with no service requirement for this to be taken. 18. If your organisation has introduced any outstanding initiatives that have resulted in improved gender equality in your workplace, please tell us about them.

(As with all questions in this questionnaire, information you provide here will appear in your public report.)

In 2018 GPT updated our parental leave policy to increase the attractiveness of being primary carer to males, as part of an effort to normalise a shared approach to caring during the first two years of the child's life. Commonly, the primary carer of a child is on leave for the first 12 months post the child's birth. GPT's initiative extends the period in which primary carers leave can be accessed for up to 2 years post birth, creating the potential for individuals who may not have been the initial primary carer during the first 12 months to access this leave in the second twelve months post birth, which would typically be around the time at which the initial primary carer concludes their parental leave to return to work. The provision of our daily child care allowance, and the increase of this to \$40 per day, further supports parents with the expense of child care and facilitates a return to work.
